Technical: HTML, CSS, JavaScript, TypeScript, React, ASP.NET, C#, SQL, UI/UX, Dashboard Development, Troubleshooting, Reporting

PROFESSIONAL EXPERIENCE

IT and Web Systems Specialist

Smartcat Company, Riyadh | December 2023 - August 2026

- Contributed to technical marketing and sales by running customized email and WhatsApp outreach campaigns tailored to different sectors, supporting client acquisition and lead generation for company services.
- Prepared and reviewed technical proposals for prospective clients, organizing and presenting the company's services and technical platforms in a clear, client-ready format.
- Developed and managed the company's digital presence, supporting its web interfaces and their integration with internal systems and business workflows.
- Supported and followed up on project delivery, troubleshooting systems, websites, and CRM-related workflows to maintain service continuity and a positive user experience.
- Prepared system and project progress reports and collaborated with internal teams and external companies in virtual meetings.

IT Support Technician

King Fahad Medical City, Riyadh | December 2025 - June 2026

- Managed electronic course evaluations, analyzed user feedback, and translated user needs into practical system improvements.
- Designed and implemented customized evaluation forms for training courses, improving data collection accuracy and ease of use.
- Prepared annual achievement reports and operational documentation to support stakeholder communication and decision-making.
- Supported users and resolved technical and system issues while explaining solutions clearly and maintaining service quality.
